AMERICAN SILVER.

DOLLARS AND PROOF SETS.

\$ 20.00

338. 1794 As regards impression and condition, this dollar is nearly or quite equal to the one which in my sale of Oct. 21 produced the extraordinary sum of \$285.00. This specimen is unfortunately blemished by having the name of "Andrew Spenee" pricked into the field of the coin, and some figures on the head, produced by the same process; but it is nevertheless one of the finest and most desirable ever offered. Exceedingly rare.
339. 1794 Solid silver copy of a fine dollar of this date.
340. 1795 Flowing hair, a beautiful proof. In proof condition, this dollar is rarer even than the '94.
341. 1795 Flowing hair, a variety differing from the last, almost as fine, though not a proof.
342. 1795 Fillet head, beautiful; scarcely, if at all, touched by circulation.

- 613. 1797 Thirteen stars, good and by far the rarest of the three varieties.

- 615. 1797 Sixteen stars, nearly as fine and equally rare.
- 616. 1800 Very fine, scarcely any circulated, rare.
- 617. 1800 Remarkably fine, about equal to the last.
- 618. 1801 Very fine for this date, very rare.
- 619. 1802 Obv. in very satisfactory condition; the date and every portion of the head, together with the stars in front of the face and the word Liberty, with the exception of two letters, together with a portion of the stars back of the head, are perfectly distinct. Some of the stars are partially and others wholly obliterated, as are the letters LI in Liberty. The piece is further blemished by two slight scratches across the face; the rev. is scratched and *very badly* worn. This piece was originally from the Stearns Collection, and more recently from that of Dr. Augustine Shurtleff. Of its genuineness there is no possible doubt. Being one of but three existing, it is the very rarest and most desirable of the silver series.

[Particular attention is called to this collection of Massachusetts money. I have at different times possessed hundreds of specimens, sometimes large collections, which had been many years in forming; but I cannot forbear remarking that I never had, and never saw, a selection so fine as the following. [TREASURE TROVE. — Some time during the summer of 1863, a little boy, son of George P. Reed, Esq., of Roxbury, in clambering up a bank in the vicinity of May's Woods, dislodged from a crevice by the side of a rock a mass of gravel, and thereby brought to view a quantity of Pine Tree money, twenty-eight pieces in number. This is the largest amount of this coinage that has ever been found buried, with the exception of the famous Castine Deposit. The collection comprises six Pine Tree Shillings, all very fine, and one of them a remarkably good specimen of the *Masachusetts* type; one Oak Tree Shilling; two Pine Tree Sixpences; seven Oak Tree Sixpences, one of which, bent as a "Witch Token," bears as plainly as though indented yesterday the imprint of the teeth of some old Puritan; four Pine Tree Threepences; two Oak Tree Threepences, and six Oak Tree Twopences. All these pieces are fine; and, with very few exceptions, they are *remarkably fine*. When these coins were first found, I purchased them; and, though often requested to do so, have always refused to sell single pieces, preferring that all should be kept together. I now propose to offer the entire lot, at a starting bid of one hundred and fifty dollars. If this bid is not made, the lot will be withdrawn.]

- 1640². Pine Tree and Oak Tree money, as above, 28 pieces.

1645. James II. Tin Piece, *original*, very fine and rare.
1646. Carolina Copper, 1694, perfectly uncirculated, the copper remaining bright about the letters; nothing less than a proof impression, and without doubt the finest in existence; excessively rare.

1663. A set of Rosa Americanas, 1723, crowned rose; per-

feetly unregulated; another such set it would be almost impossible to procure, the Farthing, even in ordinary condition being very rare: will be sold as a set of three pieces.

1664. Rosa Americana Half-Penny, 1723; very broad and thin planchet, fine and rare variety.

[The six "Higleys" following constitute without doubt the finest and most perfect set existing. Of the genuineness of the first five, there is no question; the sixth is doubtful, though good authority exists for considering it genuine. It is proper here to remark, that Mr. McCoy does, and always did, consider it a counterfeit.]

1665. Granby or Higley copper; obv. a deer facing left, standing within a circle; rev. three hammers crowned, "Connecticut, 1737." Of this variety of the Granby, only three or four specimens are known, of which this is by far the finest, being not only remarkably well struck, on a planchet of large size, but in most perfect preservation, having been scarcely at all in circulation. *One of the most desirable coins in the collection.*

1670. Granby or Higley Copper, 1737, of the same general description as the one first described, but wholly different in execution. For a particular account of this piece, reference is made to my Catalogue of April 28-May 1, 1863, No. 1938.

 2455. Same as the last, brilliant proof, rare, 19.
 2456. Washington Cent, 1792, military bust to left, "G. Washington, President, I.;" rev. a large eagle, with raised wings, the head surrounded by fifteen stars, "United States of America;" superb, perfectly uncirculated, portions of the metal still remaining bright — first sold in Mr. Cogan's sale of May, 1860; has always been noted amongst collectors as one of the very finest existing; of the highest rarity, 23.
 2457. Washington Cent, 1792, "Washington, President;" rev. a very large spread eagle, with scroll inscribed E PLURIBUS UNUM, a small semi-circle of twelve stars, with a single star below, above the head of the eagle. A splendid specimen; if anything, superior to the one in my last sale. The rarest of all the Washington Cents, the naked bust alone excepted, 19.
 2458. Obv. from the same die as the last; rev. "General of the American Armies," &c.; in ten lines; very fine indeed, always a rare piece, and so fine as this seldom if ever seen, 20.
 2459. "Geo. Washington, born Virginia, Feb. 11, 1732;" rev. "General of the American Armies," &c.; in ten parallel lines, rare in any condition. This one, in uncirculated condition, and partially bright, it is believed can scarcely be duplicated, 20.

[This piece, the celebrated Roman or Naked bust Washington Cent, of 1792, the owner considers far more desirable and more valuable than any other American coin or medal. Three specimens only are known in the country.]

2461. *Washington Dollar*, 1794; obv. military bust facing left, "Washington, President, 1794;" rev. American eagle standing, surrounded by a wreath, "United States of America;" being the same as the silver dollar of that year; copper, proof, unique, 27.

[The dies of this beautiful piece, of comparatively modern origin, it has been stated to me, were made for the express purpose of cheating a prominent Coin Collector. An impression in silver was first shown, for which the sum of \$300 was demanded; but, before the conclusion of the bargain, this piece made its appearance, and led to the discovery of the fraud. This impression in copper shows a slight fracture in the die, and in striking the silver one the die was entirely destroyed. The Washington Dollar in silver occupies a prominent place in a choice and valuable collection, and is esteemed by its owner as one of the most desirable of the Washington Series, as it certainly is one of the most interesting.]

W." below, the whole surrounded by a laurel wreath; outside of the wreath the inscription, "He is in glory, the world in tears," "Ob. D. 14, '99, A. 68;" rev. plain; oval, 17 by 19.

[This splendid piece is the most artistic and beautiful of all the medallie memorials of the death of Washington. Its origin is not known, but it is probably from a die by Perkins. The owner knows of no other, but has heard it stated that one specimen exists in a celebrated collection. If not unique, it is certainly of the next highest degree of rarity. The supposition that this die was by Perkins is strengthened by the fact, which may have escaped the notice of some collectors, that he cut no less than four or five distinct dies for the obverse alone of his funeral medals; and this one in oval was probably a trial die, rejected for unsuitableness of form.]

- [It will be noticed that this piece, which has been long known in Mr. Colburn's collection, differs widely from the ordinary "Success" of this size, the head and especially the face being totally different. It is probably from a die which gave way before yielding many impressions. The ordinary die is supposed to be one cut to replace the first.]

W. ELLIOT WOODWARD'S COLLECTION
OF
CATALOGUES, CIRCULARS, PAMPHLETS, &c.,
Relating to Coins, Coin Sales, Coinage, and Currency.

[In forming this Collection, in accordance with the views of other collectors, any allusion whatever to coins in a catalogue has been deemed sufficient reason for giving it a place here. This explanation is made, to avoid any possible misunderstanding on the part of gentlemen, who, not being present, may favor the sale with their orders. To save space, and avoid repetition, it may be stated here, that all the Catalogues, &c., are in fine condition, unless otherwise stated. In all cases, with, possibly, an exception or two, where the quality of paper will admit, the prices and names are marked in ink; and, generally, the marking is very neatly done. The name of Messrs. Bangs, Merwin & Co., occurring so frequently, is abbreviated by the use of their initials. The abbreviation p. and n., is for priced and named. The degree of rarity named has reference frequently to the fact of the catalogue being priced or named: this circumstance may make a catalogue very rare, which might otherwise be quite common.]
